SOLID STATE SUPPLIES

Supporting Tomorrow's
 Designs Today

Manufacturers
 Linecard

Solid State Supplies Ltd (part of the Solid State plc), is a focused distributor serving the needs of the electronics community in the UK. We provide a comprehensive range of technical, commercial, value-added, training and support services.

“We do the things that the smaller distributors can’t and the bigger distributors don’t want to.”

- Gary Marsh, CEO, Solid State PLC

UK warehousing ensures rapid deliveries and delivers multiple support programmes. Multiple logistics services ensure on time delivery through buffer stocks, consignment stocks and VMI programmes.

We don’t just help provide our customers with the best components for particular applications, we assist our customers in integrating these parts into successful new products and work hand in hand with them as projects progress from R&D to volume production.
